Market Dynamics

The rising number of Islamic population coupled with the shifting preference towards modest Islamic clothing fashion wear is driving the market growth. Additionally, the rising popularity of Islamic clothing in sports industry owing to favorable changes in regulations of international games is further fuelling the market growth. On the other hand, controversies regarding losing the ethnic value among Muslim people due to the shifting preference towards mainstream fashion may hamper market growth. Whereas, increasing focus on the marketing campaign along with the design innovations by the major players is expected to offer an opportunity during the forecast period.

This detailed market study is centered on the data obtained from multiple sources and is analyzed using numerous tools including porter's five forces analysis, market attractiveness analysis and value chain analysis. These tools are employed to gain insights of the potential value of the market facilitating the business strategists with the latest growth opportunities. Additionally, these tools also provide a detailed analysis of each application/product segment in the global market of Islamic clothing.
