Market Dynamics

The growing demand from the construction industry for steel structure installation and infrastructure development is driving the market growth. The increasing use of the riveting tool in fabrication processes is again accelerating market growth. Additionally, the growing demand for automation across the globe is also expected to augment market demand. On the other hand, increasing penetration of adhesives and tapes may restrict market growth. Whereas, the use of advanced riveting tools in flooring and outer body bonding for applications in transportation is expected to drive demand during the forecast period.

This detailed market study is centered on the data obtained from multiple sources and is analyzed using numerous tools including porter's five forces analysis, market attractiveness analysis and value chain analysis. These tools are employed to gain insights of the potential value of the market facilitating the business strategists with the latest growth opportunities. Additionally, these tools also provide a detailed analysis of each application/product segment in the global market of riveting tools.

Market Segmentation

The broad riveting tools market has been sub-grouped into product, and application. The report studies these subsets with respect to the geographical segmentation. The strategists can gain a detailed insight and devise appropriate strategies to target specific market. This detail will lead to a focused approach leading to identification of better opportunities.

By Product

- Pneumatic
- Hydro-pneumatic
- Battery Powered
- Lazy Tong
- Hand Held Lever

By Application

- Automotive & Aerospace
- Building & Construction
- Transportation
- Woodworking & Decorative
- Others

Regional Analysis

Furthermore, the report comprises of the geographical segmentation which mainly focuses on current and forecast demand for riveting tools in North America, Europe, Asia Pacific, Latin America, and Middle East & Africa. The report further focuses on demand for individual application segments in all the regions.
