

According to the global [Modular Data Center Market](#) report published by Value Market Research, the market is expected to touch USD XX.X MN by 2025, with a CAGR of X.XX% growing from valued USD XX.X MN in 2018. This is a tailored made research service providing informative data and various critical aspects of the market such as market outlook, market share, growth, and trends. Further, the report also offers evidence-based information that helps to transform clients business and achieve their business goals. Moreover, the report also highlights the key strategy of top players. Additionally, this report covers a wide spectrum of services such as the latest technology trend, market opportunity analysis, and competitive landscape.

The research report also covers the comprehensive profiles of the key players in the market and an in-depth view of the competitive landscape worldwide. The major players in the modular data center market include Bladroom Group Ltd, Cannon Technologies Ltd, Cisco System Inc., Colt Group SA, Dell EMC, Flexenclosure AB, HPE Company, Huawei Technologies Co. Ltd, IBM Corporation, Instant Data Centers LLC, Rittal GmbH & Co. KG, Schneider Electric SE and Vertiv Co. This section includes a holistic view of the competitive landscape that includes various strategic developments such as key mergers & acquisitions, future capacities, partnerships, financial overviews, collaborations, new product developments, new product launches, and other developments.

### **Market Dynamics**

The growing need for energy efficient data centers is primarily driving the market growth. The requirement of portability and scalability across the globe is again fuelling market growth. Along with this, the increasing need for rapidly deployable data centers is further boosting the market growth. However, factors such as limitations in high-performance computing are likely to restrict market growth. Whereas, deployments in disaster-prone areas is expected to create an opportunity over the forecast period.

The report covers Porter's Five Forces Model, Market Attractiveness Analysis and Value Chain analysis. These tools help to get a clear picture of the industry's structure and evaluate the competition attractiveness at a global level.

Additionally, these tools also give inclusive assessment of each application/product segment in the global market of modular data center.

### **Market Segmentation**

The entire modular data center market has been sub-categorized into solution and services, application, and end-user. The report provides an analysis of these subsets with respect to the geographical segmentation. This research study will keep marketer informed and helps to identify the target demographics for a product or service.

### **By Solution and Services**

- Function Module Solution
- Services

#### **By Application**

- Disaster Backup
- High Performance/ Edge Computing
- Data Center Expansion
- Starter Data Centers

#### **By End-User**

- IT
- Telecom
- BFSI
- Government
- Other

#### **Regional Analysis**

This section covers regional segmentation which accentuates on current and future demand for modular data center market across North America, Europe, Asia-Pacific, Latin America, and Middle East & Africa. Further, the report focuses on demand for individual application segment across all the prominent regions.
