Market Dynamics

The increasing investments in offshore oil & gas and renewable sectors across the globe are likely to propel the market growth. However, capital-intensive market and oversupply of offshore vessels in the market are likely to hamper the demand of OSVs in the near future. Whereas, replacement and decommissions of aging offshore infrastructure coupled with increasing exploration activities in ultra-deepwater and arctic region are expected to spur an opportunity over the forecast period.

The report covers Porter's Five Forces Model, Market Attractiveness Analysis and Value Chain analysis. These tools help to get a clear picture of the industry's structure and evaluate the competition attractiveness at a global level.

Additionally, these tools also give inclusive assessment of each application/product segment in the global market of offshore support vessel.
