Market Dynamics

The global construction industry is expected to grow by an average of 3.6% a year over the forecast period 2018 to 2022. Global construction output growth will accelerate to +3.6% in 2018, up from 3.1% in 2017, reflecting the recovery in the US as well as general improvements across emerging markets. In South and South-East Asia, for example, construction in India has regained growth momentum, while the pick-up in oil prices has supported the recovery in the Middle East and Africa. Construction activity is gathering momentum across Western Europe with the region's output set to expand by 2.4% a year on an average from 2018 to 2022. The Middle East and Africa region as a whole will be the fastest to grow with an annual average growth of 6.4% from 2018 to 2022.

Growing population and urbanization, a shift in the populace in the urbanized areas, especially in developing nations are expected to boost demand for decorative material in residential application. This shift leads to a growing demand for homes and residential complexes. However, high initial cost and threat of substitutes may hamper the growth of this industry.

The report has been created by using crucial tools such as Porter's Five Forces Model, Market Attractiveness Analysis and Value Chain analysis to help businesses around the globe navigate opportunities and challenges in the rapidly evolving marketplace with clarity. These tools also serve the detailed information of each application/product segment in the global market of decorative concrete.
