Market Dynamics

The market is witnessing substantial growth owing to rising demand for paints, coatings, plasticizers, detergents, etc. to cater to end-use industries. Growing usage of nonene in the production of chemical intermediates such as isodecylon, dinonyl naphthalene, nonyl mercaptan, nonyl phenols and others are contributing the market growth. Also, relatively low cost of nonene with excellent manufacturing flexibility is again boosting the market growth. However, stringent regulation imposed on nonene is expected to act as a roadblock in the market growth.

This detailed market study is centered on the data obtained from multiple sources and is analyzed using numerous tools including porter's five forces analysis, market attractiveness analysis and value chain analysis. These tools are employed to gain insights of the potential value of the market facilitating the business strategists with the latest growth opportunities. Additionally, these tools also provide a detailed analysis of each application/product segment in the global market of 1-nonene.

Market Segmentation

The broad 1-nonene market has been sub-grouped into application. The report studies these subsets with respect to the geographical segmentation. The strategists can gain a detailed insight and devise appropriate strategies to target specific market. This detail will lead to a focused approach leading to identification of better opportunities.

By Application

- Isodecyl Alcohol
- Nonyl Phenol

- Neodecanoic Acid
- Isononyl Mercaptan
- Others

Regional Analysis

Furthermore, the report comprises of the geographical segmentation, which mainly focuses on current and forecast demand for 1-nonene in North America, Europe, Asia Pacific, Latin America, and Middle East & Africa. The report further focuses on demand for individual application segments in all the regions.
