

According to the global [Aluminum Forging Market](#) report published by Value Market Research, the market is expected to touch USD 20 BN by 2025, with a CAGR of 6% growing from valued USD 12.7 BN (by revenue) in 2018. This is a tailored made research service providing informative data and various critical aspects of the market such as market outlook, market share, growth, and trends. Further, the report also offers evidence-based information that helps to transform clients business and achieve their business goals. Moreover, the report also highlights the key strategy of top players. Additionally, this report covers a wide spectrum of services such as the latest technology trend, market opportunity analysis, and competitive landscape.

The report also covers detailed competitive landscape including company profiles of key players operating in the global market. The key players in the aluminum forging market include Aluminum Precision Products, American Handforge, Anderson Shumaker, BRAWO USA, BUNTY LLC, MATTCO FORGE, Philadelphia Forgings and Queen City Forging Company among others. An in-depth view of the competitive outlook includes future capacities, key mergers & acquisitions, financial overview, partnerships, collaborations, new product launches, new product developments and other developments with information in terms of H.Q.

Market Dynamics

Rising demand for durable, lightweight materials with high strength in aircraft and automotive vehicle is driving the market growth. The growing popularity of forged aluminum owing to lightweight material has successfully replaced steel in an industrial application is also fueling the market growth. Use of forging to obtain aluminum at cheaper rate has widened its application areas.

This detailed market study is centered on the data obtained from multiple sources and is analyzed using numerous tools including porter's five forces analysis, market attractiveness analysis and value chain analysis. These tools are employed to gain insights of the potential value of the market facilitating the business strategists with the latest growth opportunities. Additionally, these tools also provide a detailed analysis of each application/product segment in the global market of aluminum forging.

Market Segmentation

The broad aluminum forging market has been sub-grouped into product and application. The report studies these subsets with respect to the geographical segmentation. The strategists can gain a detailed insight and devise appropriate strategies to target specific market. This detail will lead to a focused approach leading to identification of better opportunities.

By Product

- Open Die Forging
- Closed Die Forging
- Ring Rolled Forging

By Application

- Aerospace
- Defense
- Transformation/Automotive
- Others

Regional Analysis

Furthermore, the report comprises of the geographical segmentation, which mainly focuses on current and forecast demand for aluminum forging in North America, Europe, Asia Pacific, Latin America, and Middle East & Africa. The report further focuses on demand for individual application segments in all the regions.
