Market Dynamics

The furniture industry has remained a major outlet for graft polyols. The revival of the global economy has resulted in increasing demand for furniture for household and as well as commercial premises. Graft polyols based foams are employed in the manufacture of carpets, cushions, furniture seating, mattress, beds, rugs, etc. Graft polyols based foams are mainly employed in the manufacture of automotive seating, and automotive interiors in the automotive sector. Steady growth in the automotive sector is expected to widen demand for graft polyols in various applications. However, volatility in crude oil prices has a considerable impact on raw material prices. This, in turn, hampers the growth of the graft polyols market.
