### **Market Dynamics**

The growing usage of information technology (IT) in healthcare and life science industries is driving the demand of clinical trials management system (CTMS) in the market. Increasing expenditure on R&D by clinical research organizations, such as IFPMA is another factor fuelling the market growth. In addition to this, rising government funding and investments for biotechnology and pharmaceutical are also propelling the market growth. However, high cost associated with CTMS may hamper the market growth. Nevertheless, a cloud-based delivery of the clinical trials management system (CTMS) is expected to spur the opportunity in the forecast timeframe.

This detailed market study is centered on the data obtained from multiple sources and is analyzed using numerous tools including porter's five forces analysis, market attractiveness analysis and value chain analysis. These tools are employed to gain insights of the potential value of the market facilitating the business strategists with the latest growth opportunities. Additionally, these tools also provide a detailed analysis of each application/product segment in the global market of clinical trials management system (CTMS).

### **Market Segmentation**

The broad clinical trials management system (CTMS) market has been sub-grouped into component, delivery mode, product and end-user. The report studies these subsets with respect to the geographical segmentation. The strategists can gain a detailed insight and devise appropriate strategies to target specific market. This detail will lead to a focused approach leading to identification of better opportunities.

### **By Component**

- Software
- Hardware
- Services

### **By Delivery Mode**

- Web-Based
- Cloud-Based
- On Premise

### **By Product**

- Enterprise Based
- Site Based

### **By End-User**

- Pharmaceuticals & Biopharmaceuticals Companies
- Clinical Research Organizations
- Healthcare Providers

### **Regional Analysis**

Furthermore, the report comprises of the geographical segmentation which mainly focuses on current and forecast demand for clinical trials management system (CTMS) in North America, Europe, Asia Pacific, Latin America, and Middle East & Africa. The report further focuses on demand for individual application segments in all the regions.
