

According to the global [VTOL UAV Market](#) report published by Value Market Research, the market is expected to touch USD 10,160.3 MN by 2024, with a CAGR of 18.1% growing from USD 3,155.4 MN in 2017. This is a tailored made research service providing informative data and various critical aspects of the market such as market outlook, market share, growth, and trends. Further, the report also offers evidence-based information that helps to transform clients business and achieve their business goals. Moreover, the report also highlights the key strategy of top players. Additionally, this report covers a wide spectrum of services such as the latest technology trend, market opportunity analysis, and competitive landscape.

The report also covers detailed competitive landscape including company profiles of key players operating in the global market. The key players in the VTOL UAV market include DJI Company, Israel Aerospace Industries Limited, Lockheed Martin Corporation, and Northrop Grumman Corporation. An in-depth view of the competitive outlook includes future capacities, key mergers & acquisitions, financial overview, partnerships, collaborations, new product launches, new product developments and other developments with information in terms of H.Q.

Market Dynamics

The global VTOL UAV market is projected to witness a high growth in the years to come. The growth of this market is foreseen to be driven by the rising demand of VTOL UAVs in civil & commercial sector coupled with the technological innovation. Additionally, the growing demand for 3D mapping, oil & gas pipeline inspection, recreational activities, safety, and surveillance is further adding impetus growth to the market.

This detailed market study is centered on the data obtained from multiple sources and is analyzed using numerous tools including porter's five forces analysis, market attractiveness analysis and value chain analysis. These tools are employed to gain insights of the potential value of the market facilitating the business strategists with the latest growth opportunities. Additionally, these tools also provide a detailed analysis of each application/product segment in the global market of VTOL UAV.

Market Segmentation

The broad VTOL UAV market has been sub-grouped into type, application, size, and payload. The report studies these subsets with respect to the geographical segmentation. The strategists can gain a detailed insight and devise appropriate strategies to target specific market. This detail will lead to a focused approach leading to identification of better opportunities.

By Type

- Helicopter
- Multicopter
- Hybrid

By Applications

- Military
- Homeland Security
- Civil & Commercial
- By Size
- Large
- Medium
- Small

By Payload

- Intelligence, Surveillance and Reconnaissance (ISR)
- Cameras
- Telemetry
- Sensors
- Autopilot

Regional Analysis

Furthermore, the report comprises of the geographical segmentation which mainly focuses on current and forecast demand for VTOL UAV in North America, Europe, Asia Pacific, Latin America, and Middle East & Africa. The report further focuses on demand for individual application segments in all the regions.
